## Asset-Based Finance 4.0 – Financing in transition

### Opening panel debate/Keynote address

**Bestandsaufnahme: Die Rolle der Politik in und nach der Corona-Krise – Maßnahmen, aktueller Status und die künftigen Herausforderungen für Politik und Wirtschaft** 

Keynote: Dr Joerg Kukies, State Secretary in the Federal Ministry of Finance

### Overcoming the coronavirus crisis: Asset based finance in challenging times

- **Corporate Special:** Aktuelle Herausforderungen der Finanzierung der Realwirtschaft – Politik und Unternehmer im Gespräch 
- Auswirkungen der Krise auf die Banken- und Kapitalmarktfinanzierung von Unternehmen 
- Das Finanzsystem in der Coronakrise – Maßnahmen zur Stabilisierung des Bankensystems 
- Zentralbankoptionen zur Überwindung der Finanzierungsprobleme von Eurostaaten in und nach der Coronakrise 
- Credit markets after the end of the forbearance measures and the special regulations on insolvency law in Germany and Europe 
- Securitisation of non-performing loans in Europe – Status and what needs to be done? 
- **BREXIT SPECIAL:** Brexit – opportunities and challenges for asset-based finance in turbulent times 

### Securitisation – Regulatory issues

- **Investor Special:** Credit Markets under stress – what are the impacts on securitisation? 
- Auswirkungen des Kreditmoratoriums auf Verbriefungen? 
- Die aktuelle Bedeutung von Verbriefungen in der Geldmarktpolitik des Eurosystems 
- Has the implementation of the securitisation regulation been completed? 
- STS, SRT and capital relief trades: Rules for securitisation & risk transfer 
- **STS Special** – Could the securitisation world be a blueprint for broader capital market regulation? 

|                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
